

The image shows a Visual Studio Code editor interface. The top bar displays the file name 'Codigo_Fuente.cpp (1)' and various icons for search, run, and settings. The left sidebar contains the 'Project' view showing a folder structure with 'Examen Parcial II' and 'Evidencia', and the 'Run' view showing the execution of 'Codigo_Fuente.cpp (1)'. The main editor area displays the C++ source code for 'Codigo_Fuente.cpp', which includes headers for `<iostream>` and `<fstream>`, and a `limpiar` function. The bottom panel shows the terminal output of the program, which is a sales system menu. The output shows the user has entered '10' for quantity and 'Q20' for unit price, resulting in a successful sale registration. The system then displays a menu with options: 1. Registrar Venta, 2. Ver Reporte de Ventas, and 3. Salir. The user has selected option 2, and the system displays a table of sales data for 'papel' with a quantity of 10, a unit price of Q20, and a total of Q200. The system also shows the accumulated total as Q200. The user has selected option 3, and the system displays 'Saliendo del sistema...'. The terminal output ends with 'Process finished with exit code 0'.

Project

- Examen Parcial II
 - Evidencia
 - Codigo_Fuente.cpp

Run

Codigo_Fuente.cpp (1)

```
1 #include <iostream>
2 #include <fstream>
3
4 limpiar
```

↑ Cantidad:10

↓ Precio unitario: Q20
